PROFILE

Multidisciplinary designer with 10+ years across product, interaction, 3D, and motion — from web and product interfaces to real-time interactive 3D experiences and projection mapping. My path runs from a technical, engineering-minded education into formal design training, and that mix still shapes how I work: I think in systems — states, flows, and feedback — and care as much about how something communicates and behaves as how it looks. I move fluidly between design direction, animation, and code, turning complex, technical subjects into clear, intuitive experiences that earn trust. Over the years I've led work end to end — from concept and art direction to final production — for festival, retail, and cultural brands, with award-winning results. AI is integrated into my everyday production workflow, from early exploration to finished delivery.

EXPERIENCE

Freelance

2015 — 2020 · 5 yrs

Independent Designer

Delivered branding, print, and digital design for a broad range of clients — from visual identities and editorial layouts to campaign and event graphics. Owned projects end to end, from client brief to final production.

AV Studio

2020 — 2022 · 2 yrs

Graphic Designer

Designed print, editorial, and brand collateral across campaigns and identity work. Built the typographic and visual craft foundation that later grew into motion and 3D.

Studio ENKI

2022 — 2025 · 3 yrs

Art Director

Art-directed websites, campaigns, branding, and motion design for brands and cultural institutions. Set the visual direction and led work from concept to delivery — award-winning web experiences, brand systems, campaign identities, and 3D/motion.

ARTrebel 9

2025 — Present

Product Designer · 3D & Motion Designer

Design interaction, motion, and 3D across client products and campaigns — shaping interfaces, product visualizations, and real-time experiences that make complex systems legible and intuitive.

EDUCATION

MA — Graphic Design (Visual Communication Design)

Academy of Fine Arts and Design (ALUO), University of Ljubljana

MASTER'S · LJUBLJANA, SI

BA — Graphic Design (Visual Communications)

Faculty of Design (Fakulteta za dizajn), Ljubljana
